

We are excited to share that we have partnered with Kidneylink, a **no-cost program dedicated to supporting you** through your entire kidney care journey. The Kidneylink team includes nurses, dietitians, social workers and pharmacists who are working with us in caring for your health.

Together with Kidneylink, we will:

- Discuss all of your kidney treatment choices
- Build a care plan that suits your lifestyle and provides you with the best possible care
- Identify even more health benefits that may be available to you at no cost

You might be wondering, what is the catch? None! Our partnership with Kidneylink is included in your Medicare benefits. There will be no change to your doctor appointments. Rather, the Kidneylink team will be available between visits to ensure you have the support you need.

A Kidneylink nurse or care coordinator may reach out to you on our behalf, and we would like you to participate in these discussions.

To get started sooner, schedule an appointment with your Kidneylink team by calling 877-225-9496 or emailing KidneyCare@Kidneylink.com.

In good health,

Your Kidneylink Care Team
